

Several NCADD affiliates have and will be putting on performance of an inspirational (and often hilarious) live stage performance called ""PASS IT ON...AN EVENING WITH BILL W. & DR. BOB".

"Pass It On" is designed to educate and celebrate sobriety - while serving as the centerpiece for fund raising events which support recovery.

The show is the brainchild of and was created and performed by Gary Kimble and Richard Springle. "PASS IT ON...AN EVENING WITH BILL W. & DR. BOB" is produced by Unflappable Recovery Entertainment, NYC

Gary and Richard have travelled the U.S. for the past four years appearing as Bill W. and Dr. Bob (including at the 75th International A.A. Convention in San Antonio) in the National Tour of the off Broadway play "Bill W. and Dr. Bob" - serving as a catalyst for raising tens of thousands of dollars for recovery organizations nationwide.

Gary and Richard will also appear as Bill W. and Dr. Bob in the upcoming landmark NLP/PBS Television Documentary "One Day at a Time – A History of Hope.

Their professional theatrical careers as actors, directors and producers span four decades each – appearing on stages around the world – in over 60 countries abroad and in over 800 cities in the U.S. and Canada – with a combined professional theatrical experience of 76 years between them.

Just as important, the actors also share 40 years of sobriety between them which is why their theatrical production company is named Unflappable Recovery Entertainment.

Several NCADD affiliates have already arranged for performances of "Pass It on" and more are being scheduled weekly. [Click here](#) to read review by Thelma Ross CEO of NCADD's Phoenix affiliate.
